PROFILE

Computer systems researcher working at the intersection of distributed systems and scientific computing. I lead federally funded, multi-institutional research on AI-enabled scientific workflows, edge-to-cloud computing, network testbeds, performance and anomaly analysis, and cyberinfrastructure (CI) for NSF Major Facilities. My work has been supported by NSF and DOE awards with combined budgets of more than $40M, and has produced more than 100 publications, including four best paper awards.

> **107** publications · **15** NSF and DOE research grants · **7** honors and awards

Research interests: Distributed systems, Cloud & edge computing, Networking & testbeds, Scientific workflows, Resource provisioning & scheduling, Performance analysis, ML for anomaly detection, Cyberinfrastructure, Quantum networking.

PROFESSIONAL EXPERIENCE

Director, Network Research and Infrastructure Group (NRIG) 2024–present

Renaissance Computing Institute (RENCI), UNC Chapel Hill *Interim Director from January 2024.*

- Lead a team of PhD researchers, software developers, and CI experts carrying out federally funded R&D in networking, distributed systems, scientific computing, cybertraining, and computer systems.
- PI or co-PI on multiple multi-institutional NSF and DOE projects; develop research agendas and coordinate work across partner universities and national laboratories.
- Build new research directions and partnerships with federal agencies, NSF Major and Mid-scale Facilities, national labs, and industry.

Associate Director, CI Compass 2021–present

NSF Cyberinfrastructure Center of Excellence

- Co-lead planning, community engagement, and operations of the Center, which supports CI practitioners across NSF Major and Mid-scale Facilities.
- Liaison to the NSF Large Facilities Office; organize the NSF CI for Major Facilities workshops and CI Compass virtual workshops.

Assistant Director, Network Research and Infrastructure Group 2019–2024

RENCI, UNC Chapel Hill

Senior Research Scientist, HPC and Network Research and Infrastructure 2006–2019

RENCI, UNC Chapel Hill

- Led and executed federally funded research on cloud computing, scientific workflows, performance analysis, anomaly detection, machine learning, networked testbeds (ExoGENI), and CI for scientific applications.

Graduate Research Assistant 2001–2006

Rice University (advisor: Ken Kennedy)

- Developed heuristic workflow scheduling using performance models, batch-queue-aware scheduling, and scalable application scheduling for Grid systems (GrADS and VGrADS projects).

Graduate Research Intern Summer 2003

USC Information Sciences Institute (supervisors: Carl Kesselman and Ewa Deelman)

- Extended the Pegasus Workflow Management System with new scheduling algorithms and dynamic task-based scheduling.

EDUCATION

Ph.D., Computer Science, Rice University, Houston, TX 2006

Thesis: *Toward a Tool for Scheduling Application Workflows onto Distributed Grid Systems* · Advisor: Ken Kennedy

M.S., Computer Science, Rice University, Houston, TX 2002

Thesis: *Mapping HPF onto the Grid* · Advisor: Ken Kennedy

B.Tech., Computer Science and Engineering, Indian Institute of Technology Bombay, Mumbai, India 2000

Thesis: *Design and Implementation of a Java JIT Compiler* · Advisor: D. M. Dhamdhere

HONORS AND AWARDS

Best Paper Award, IEEE/ACM Innovating the Network for Data-Intensive Science (INDIS) Workshop at SC'23 2023

"Elephants Sharing the Highway: Studying TCP Fairness in Large Transfers over High Throughput Links"

Best Paper Runner-Up, CNERT Workshop at IEEE INFOCOM 2023 2023

"Experiments on Network Services for Video Transmission using FABRIC Instrument Resources"

Best Paper Award, ACM/IEEE International Workshop on Cloud-to-Things Continuum (Cloud2Things 2022) 2022

"Automating Edge-to-cloud Workflows for Science: Traversing the Edge-to-cloud Continuum with Pegasus"

Best Paper Award, Elsevier Future Generation Computer Systems (FGCS) Journal 2021

"End-to-end online performance data capture and analysis for scientific workflows"

Editor's Choice Paper, Elsevier Future Generation Computer Systems (FGCS) 2021

"End-to-end online performance data capture and analysis for scientific workflows"

SCinet Technology Challenge Awards: Most Original Technical Approach & Most Diverse Resource Set, SC'19 Conference 2019

"Dynamic Network-Centric Multi-Cloud Platform (DyNamo) for Real-Time Weather Forecasting Workflows"

Phil Andrews Most Transformative Contribution Award & Best Paper Award, Practice and Experience in Advanced Research Computing (PEARC '19) 2019

"Integrity Protection for Scientific Workflow Data: Motivation and Initial Experiences"

RESEARCH FUNDING

Amounts are total award budgets across all collaborating institutions.

CO-PI **CSSI: Frameworks: Applying Artificial Intelligence Advances to the Next Generation of Workflow Management on Modern Cyberinfrastructure** Jun 2025 – May 2030

NSF Office of Advanced Cyberinfrastructure (OAC) · Award 2513101 · $5,000,000 total

Partners: USC/ISI (Lead), RENCI, University of Tennessee at Knoxville, University of Massachusetts at Amherst

PI (UNC) **Collaborative Research: Cross-Cutting Improvements: Open Science Roadmap for Research Infrastructures** Oct 2025 – Sep 2028

NSF Office of Advanced Cyberinfrastructure (OAC) · Award 2531701 · $600,000 total

Partners: University of Notre Dame (Lead), USC/ISI, RENCI, Indiana University

PI **REU Site: Exploring the FABRIC Research Instrument to Catalyze Multi-disciplinary Research in Networks, Distributed Systems, and Emerging CyberInfrastructure (CI) Applications** Aug 2025 – Jul 2028

NSF Division of Computer and Network Systems (CNS) · Award 2447441 · $369,421 total

Partners: RENCI

PI **CyberTraining: Implementation: Medium: Cyberinfrastructure Training and Education for Leveraging Advanced Electron Microscopy in Materials Science** — Jul 2025 – Jun 2028
NSF Office of Advanced Cyberinfrastructure (OAC) · Award 2519465 · $1,000,000 total
Partners: RENCI (Lead), USC/ISI, University of Maryland at College Park

PI **CyberTraining: Implementation: Medium: CyberInfrastructure Training and Education for Synchrotron X-Ray Science (X-CITE)** — Sep 2023 – Aug 2026
NSF Office of Advanced Cyberinfrastructure (OAC) · Award 2320373 · $1,000,000 total
Partners: RENCI (Lead), USC/ISI, Cornell University

CO-PI **Exploring the Power of Distributed Intelligence for Resilient Scientific Workflows** — Jul 2023 – Jun 2028
DOE Advanced Scientific Computing Research (ASCR) · $8,750,000 total
Partners: USC/ISI (Lead), RENCI, Lawrence Berkeley National Lab, Argonne National Lab, Oak Ridge National Lab

CO-PI **PosEiDon: Platform for Explainable Distributed Infrastructure** — Sep 2021 – Aug 2024
DOE Advanced Scientific Computing Research (ASCR) · $3,750,000 total
Partners: USC/ISI (Lead), RENCI, Lawrence Berkeley National Lab, Argonne National Lab

CO-PI **CI CoE: CI Compass: An NSF Cyberinfrastructure (CI) Center of Excellence for Navigating the Major Facilities Data Lifecycle** — Jul 2021 – Jun 2026
NSF Office of Advanced Cyberinfrastructure (OAC) · Award 2127548 · $8,000,000 total
Partners: USC/ISI (Lead), RENCI, University of Notre Dame, University of Utah, Indiana University, Texas Tech University

CO-PI **CC* Integration-Large: An 'On-the-fly' Deeply Programmable End-to-end Network-Centric Platform for Edge-to-Core Workflows** — Oct 2020 – Sep 2022
NSF Office of Advanced Cyberinfrastructure (OAC) · Award 2018074 · $750,000 total
Partners: University of Massachusetts at Amherst (Lead), RENCI, USC/ISI, University of Missouri

CO-PI **Pilot Study for a Cyberinfrastructure Center of Excellence** — Oct 2018 – Sep 2021
NSF Office of Advanced Cyberinfrastructure (OAC) and Biological Sciences (BIO) · Award 1842042 · $3,884,346 total
Partners: USC/ISI (Lead), RENCI, University of Notre Dame, University of Utah, Indiana University

PI **CICI: SSC: Integrity Introspection for Scientific Workflows (IRIS)** — Sep 2018 – Aug 2022
NSF Office of Advanced Cyberinfrastructure (OAC) · Award 1839900 · $999,575 total
Partners: RENCI (Lead), USC/ISI, Indiana University

PI **CC* Integration: Delivering a Dynamic Network-centric Platform for Data-driven Science (DyNamo)** — Aug 2018 – Jul 2021
NSF Office of Advanced Cyberinfrastructure (OAC) · Award 1826997 · $1,000,000 total
Partners: RENCI (Lead), USC/ISI, University of Massachusetts at Amherst, Rutgers University

CO-PI **Panorama 360: Performance data capture and analysis for end-to-end scientific workflows** — Sep 2017 – Aug 2021
DOE Advanced Scientific Computing Research (ASCR) · Award DE-SC0012636M · $3,000,000 total
Partners: USC/ISI (Lead), RENCI, Lawrence Berkeley National Lab, Oak Ridge National Lab

Predictive Modeling and Diagnostic Monitoring of Extreme Science Workflows — Sep 2014 – Aug 2017
DOE Advanced Scientific Computing Research (ASCR) · Award DE-SC0012636 · $3,000,000 total
Partners: USC/ISI (Lead), RENCI, Lawrence Berkeley National Lab, Oak Ridge National Lab, RPI

Collaborative Research: SDCI Net New: The Missing Link: Connecting Eucalyptus Clouds with Multi-Layer Networks — Sep 2010 – Aug 2014
NSF Office of Advanced Cyberinfrastructure (OAC) · Award 1032873, 1032573, 1032765 · $808,000 total
Partners: Duke University, RENCI, University of Massachusetts at Amherst

TALKS AND PRESENTATIONS

Oct 2025 "PegasusAI: AI-Driven Scientific Workflow Management." UNC Research Week: AI-Powered Solutions for Scientific Discoveries, Chapel Hill, NC. Invited talk

Nov 2024 "NSF CI Compass Cyberinfrastructure Center of Excellence: Recent Updates." RENCI booth, SC24, Atlanta, GA. Presentation

Apr 2024 "Network Testbed for Experimenting With Decentralized Federated Learning." IEEE DCOSS-IoT 2024, Abu Dhabi, UAE. Poster

Mar 2024 "CI Compass: The NSF CI Center of Excellence for Navigating the Major Facilities Data Lifecycle." NSF Research Infrastructure Workshop, Tucson, AZ. Poster

Feb 2024 "Overview of the PosEiDon and SWARM Projects." DOE ASCR Computer Science PI Meeting, Atlanta, GA. Poster

Jan 2024 "If I Knew Then What I Know Now, I Would Have Never Designed It This Way: Approaches to CI Conceptualization and Design." NSF CI for Major Facilities Workshop, Long Beach, CA. Panel

Jun 2023 "CI Compass Overview." NSF Research Infrastructure Workshop, Washington, DC. Poster

Sep 2022 "Cyberinfrastructure Workshop at RIW 2022 (closing presentation)." NSF Research Infrastructure Workshop, Boulder, CO. Presentation

Jun 2022 "Building a Community around Cyberinfrastructure for NSF Major Facilities." CI Compass Webinar. Webinar

Mar 2022 "Cyberinfrastructure for Major Facilities: Challenges and a Path Forward." NSF CI for Major Facilities Workshop, Redondo Beach, CA. Panel

Feb 2022 "Engaging with CI Compass." CI Compass Webinar. Webinar

Mar 2020 "Leveraging Distributed Research Cloud Infrastructures for Domain Science Research and Experimentation." Open Cloud Workshop, Boston, MA. Panel

Feb 2020	“The Role of ML in Diagnosis of Integrity Errors in Distributed CI.” NSF Workshop on Smart Cyberinfrastructure, Crystal City, VA. Invited talk
Nov 2019	“Dynamic Network-centric Multi-cloud Platform (DyNamo) for Real-Time Weather Forecasting Workflows.” SCinet Technology Challenge, SC19, Denver, CO (two awards). Presentation
Nov 2019	“Leveraging Distributed Cloud Testbeds for Domain Science Research and Experimentation.” NSF Workshop on Next Generation Cloud Research Infrastructure, Princeton, NJ. Invited talk
Nov 2019	“Leveraging Distributed Networked Cloud Testbeds for Domain Science Research and Experimentation.” Global Experimentation for Future Internet (GEFI) Workshop, Coimbra, Portugal. Invited talk
Nov 2019	“Cyberinfrastructure Center of Excellence Pilot.” UNOLS Fall Council Meeting, Alexandria, VA. Invited talk
Sep 2019	“Data Life Cycle for Large Facilities.” NSF Large Facilities CI Workshop, Alexandria, VA. Presentation
Sep 2019	“Integrity Introspection for Scientific Workflows.” NSF CC*/CICI PI Meeting, Minneapolis, MN. Panel
Aug 2019	“CICoE Pilot: Data Life Cycle and Disaster Recovery for Large Facilities.” CI CoE Pilot Webinar. Webinar
Aug 2019	“Integrity Protection for Scientific Workflow Data: Motivation and Initial Experiences.” Trusted CI Webinar Series. Webinar
Oct 2018	“Investigating Use of Distributed Research Infrastructures and Testbeds for Domain Science Experimentation and Validation.” GEFI Workshop, Tokyo, Japan. Invited talk
Oct 2017	“Workflow Adaptation on Networked Cloud Infrastructures Using Intent and Performance Models.” Internet2 Technology Exchange, San Francisco, CA. Presentation
Jul 2016	“Anomaly Detection for Scientific Workflow Applications on Networked Clouds.” IEEE HPCS 2016, Innsbruck, Austria. Presentation
May 2016	“Toward an End-to-end Framework for Modeling, Monitoring and Anomaly Detection for Scientific Workflows.” LSPP Workshop at IPDPS 2016, Chicago, IL. Presentation
Dec 2015	“Adapting Scientific Workflows on Networked Clouds Using Proactive Introspection.” IEEE/ACM UCC 2015, Limassol, Cyprus. Presentation
Sep 2015	“Distributed Computing on GENI: Hadoop in a Slice (hands-on).” 36th IEEE Sarnoff Symposium, Newark, NJ. Tutorial
Nov 2014	“Managing Dynamic Networked Cloud Infrastructure for Data Driven Scientific Workflows Using Proactive Introspection.” INDIS Workshop at SC14, New Orleans, LA. Presentation
Mar 2014	“Leveraging and Adapting ExoGENI Infrastructure for Data-driven Domain Science Workflows.” 3rd GENI Research and Educational Experiment Workshop (GREE 2014), Atlanta, GA. Presentation
Mar 2014	“Distributed Computing on GENI: Hadoop in a Slice.” GENI Winter Camp, Boston, MA (Jan 2014) and GENI Engineering Conference 19, Atlanta, GA. Tutorial
Feb 2014	“Leveraging Persistent Queries for Monitoring Distributed, Data-intensive Scientific Applications.” 2nd NSF perfSONAR Workshop, Arlington, VA. Invited talk
Nov 2013	“Evaluating I/O Aware Network Management for Scientific Workflows on Networked Clouds.” NDM'13 Workshop at SC13, Denver, CO. Presentation
Mar 2013	“Distributed ResOurce Ensembles for Petascale Science.” DOE NGNS PI Meeting, LBNL, Emeryville, CA. Presentation
Jan 2013	“ExoGENI: A Distributed Networked Infrastructure-as-a-Service (NIaaS) Platform for Experimentation.” NIST Cloud Computing and Big Data Workshop, Gaithersburg, MD. Poster
Jul 2012	“Client Authentication and Authorization for GENI XMPP Messaging Service.” 14th GENI Engineering Conference. Presentation
Jun 2012	“System-wide Introspection for Accurate Attribution of Performance Bottlenecks.” WHIST'12 Workshop, Venice, Italy. Presentation
Feb 2012	“Provisioning and Scheduling Scientific Workflows.” Department of Computer Science, Duke University, Durham, NC. Invited talk

Dec 2011	"Provisioning and Evaluating Multi-domain Networked Clouds for Hadoop-based Applications." IEEE CloudCom 2011, Athens, Greece. Presentation
Mar 2010	"Modeling Memory Concurrency for Multi-Socket Multi-Core Systems." IEEE ISPASS 2010, White Plains, NY. Presentation
May 2008	"Fault Tolerance and Recovery of Scientific Workflows on Computational Grids." IEEE CCGrid 2008, Lyon, France. Presentation
Jul 2005	"Scheduling Strategies for Mapping Application Workflows onto the Grid." IEEE HPDC 2005, Raleigh, NC. Presentation

PROFESSIONAL SERVICE

Leadership and Advisory Roles

Associate Director, CI Compass, the NSF Cyberinfrastructure Center of Excellence — 2021–present

Member, Advisory Council, MCNC (Microelectronics Center of North Carolina) — Current

Member, Advisory Committee, Midscale Experimental Research Infrastructure Forum (MERIF) — Current

Liaison to the NSF Large Facilities Office, Research Infrastructure Community Outreach (RICO) Working Group — Current

Conference and Workshop Organization

Workshop Co-Chair, Workshop on Workflows in Support of Large-Scale Science (WORKS), held with SC — 2023–2026

Organizer, NSF CI Compass Virtual Workshop: AI Meets CI — 2026

Organizer, NSF CI Compass Virtual Workshop: Data Management, From Instrument to First Storage — 2025

Workshop Organizer, NSF Cyberinfrastructure for Major Facilities Workshop — 2019, 2022, 2024

Area Chair, Architecture, Network/Communications, and Management, IEEE Cluster 2021 — 2021

Workshop Co-Chair, Innovating the Network for Data-Intensive Science (INDIS), held with SC — 2021

Guest Editor, Elsevier Future Generation Computer Systems (FGCS), special issue on workflows — 2019–2021

Program Committees

- **SC**: 2018 (Clouds & Distributed Computing track), 2024 (Reproducibility Challenge)
- **eScience**: 2019, 2024, 2025, 2026
- **CCGrid**: 2017–2021, 2025
- **Cluster** (Area Chair): 2021
- **IPDPS**: 2016
- **Euro-Par**: 2023–2026
- **UCC**: 2020–2023
- **ICCS**: 2024–2026
- **WORKS** (Co-Chair 2023–2026): 2016–2021
- **INDIS** (Co-Chair 2021): 2018, 2021–2025
- **WiDE**: 2024
- **SIoTEC**: 2024
- **GCE**: 2009

Proposal Review Panels

- **National Science Foundation (NSF)**: Apr 2026, Dec 2025, Oct 2024, Jan 2024, Oct 2023, Oct 2022, Apr 2019, Mar 2017, May 2009, Mar 2009
- **Department of Energy (DOE)**: Jun 2025, Jun 2024, May 2023, Nov 2021, Apr 2021, Jan 2016
- **Vienna Science and Technology Fund (WWTF), Austria**: 2024

Journal Reviewing

IEEE Transactions on Parallel and Distributed Systems (TPDS) (2007–2009, 2014–2016, 2021); IEEE Transactions on Cloud Computing (TCC) (2014, 2017, 2019); Future Generation Computer Systems (FGCS) (2005–2007, 2017–2021); Journal of Parallel and Distributed Computing (JPDC) (2004–2006, 2022); International Journal of High Performance Computing Applications (IJHPCA) (2019); Concurrency and Computation: Practice and Experience (2001, 2004, 2021); Computing in Science & Engineering (2023); IEEE Access (2022–2023); Elsevier SoftwareX (2020–

2021); ACM Transactions on Modeling and Computer Simulation (2019); ACM Computing Surveys (2012); Journal of Systems and Software (2010); Parallel Computing (PARCO) (2006); Journal of Grid Computing (2003).
External reviewer for IPDPS (2003, 2005, 2010), SC (2004), Euro-Par (2004, 2006, 2008), Middleware for Grid Computing (2004), and the LACSI Symposium (2004).

MENTORING AND TEACHING

PI and program lead, NSF REU Site: Multi-disciplinary Research with the FABRIC Network 2025–present
RENCI, UNC Chapel Hill
Nine-week summer research program for undergraduates; first cohort of eight students in 2026.

Mentor to PhD researchers, research staff, and graduate students 2006–present
RENCI and partner institutions

Teaching Assistant (five semesters) 2000–2002
Rice University
Operating Systems, Compiler Construction, Design and Analysis of Algorithms, and Principles of Computing and Programming. Led lab sessions and mentored visiting undergraduate summer students.
